Non-GAAP Financial Measures

This press release includes FFO, FFO per share, Real Estate FFO, Real Estate FFO per share and domestic and portfolio NOI growth which are financial performance measures not defined by generally accepted accounting principles in the United States ("GAAP"). Real estate FFO is FFO of the operating partnership less other platform investments and loss (gain) due to disposal, exchange, or revaluation of equity interests, in each case, net of tax; and unrealized losses (gains) in fair value of publicly traded equity instruments and derivative instrument, net. Reconciliations of these non-GAAP financial measures to the most directly comparable GAAP measures are included in Simon's supplemental information for the quarter. FFO and NOI growth are financial performance measures widely used in the REIT industry. Our definitions of these non-GAAP measures may not be the same as similar measures reported by other REITs.

Notes:

- (A) Excess investment represents the unamortized difference of our investment over equity in the underlying net assets of the related partnerships and joint ventures shown therein. The Company generally amortizes excess investment over the life of the related assets.
- (B) The Unaudited Joint Venture Combined Statements of Operations do not include any operations or our share of net income or excess investment amortization related to our investments in Klépierre, TRG and other platform investments. Amounts included in Footnote D below exclude our share of related activity for our investments in Klépierre, TRG and other platform investments. For further information on Klépierre, reference should be made to financial information in Klépierre's public filings and additional discussion and analysis in our Form 10-K.
- (C) This report contains measures of financial or operating performance that are not specifically defined by GAAP, including FFO, FFO per share, Real Estate FFO and Real Estate FFO per share. FFO is a performance measure that is standard in the REIT business. We believe FFO provides investors with additional information concerning our operating performance and a basis to compare our performance with those of other REITs. We also use these measures internally to monitor the operating performance of our portfolio. Our computation of these non-GAAP measures may not be the same as similar measures reported by other REITs.

We determine FFO based upon the definition set forth by the National Association of Real Estate Investment Trusts ("NAREIT") Funds From Operations White Paper - 2018 Restatement. Our main business includes acquiring, owning, operating, developing, and redeveloping real estate in conjunction with the rental of retail real estate. Gains and losses of assets incidental to our main business are included in FFO. We determine FFO to be our share of consolidated net income computed in accordance with GAAP, excluding real estate related depreciation and amortization, excluding gains and losses from extraordinary items, excluding gains and losses from the sale, disposal or property insurance recoveries of, or any impairment related to, depreciable retail operating properties, plus the allocable portion of FFO of unconsolidated joint ventures based upon economic ownership interest, and all determined on a consistent basis in accordance with GAAP. However, you should understand that FFO does not represent cash flow from operations as defined by GAAP, should not be considered as an alternative to net income determined in accordance with GAAP as a measure of operating performance, and is not an alternative to cash flows as a measure of liquidity.

- (D) Includes our share of:
- Gain on land sales of \$18.5 million and \$7.8 million for the three months ended September 30, 2025 and 2024, respectively, and \$19.7 million and \$15.3 million for the nine months ended September 30, 2025 and 2024, respectively.
